DAY 1

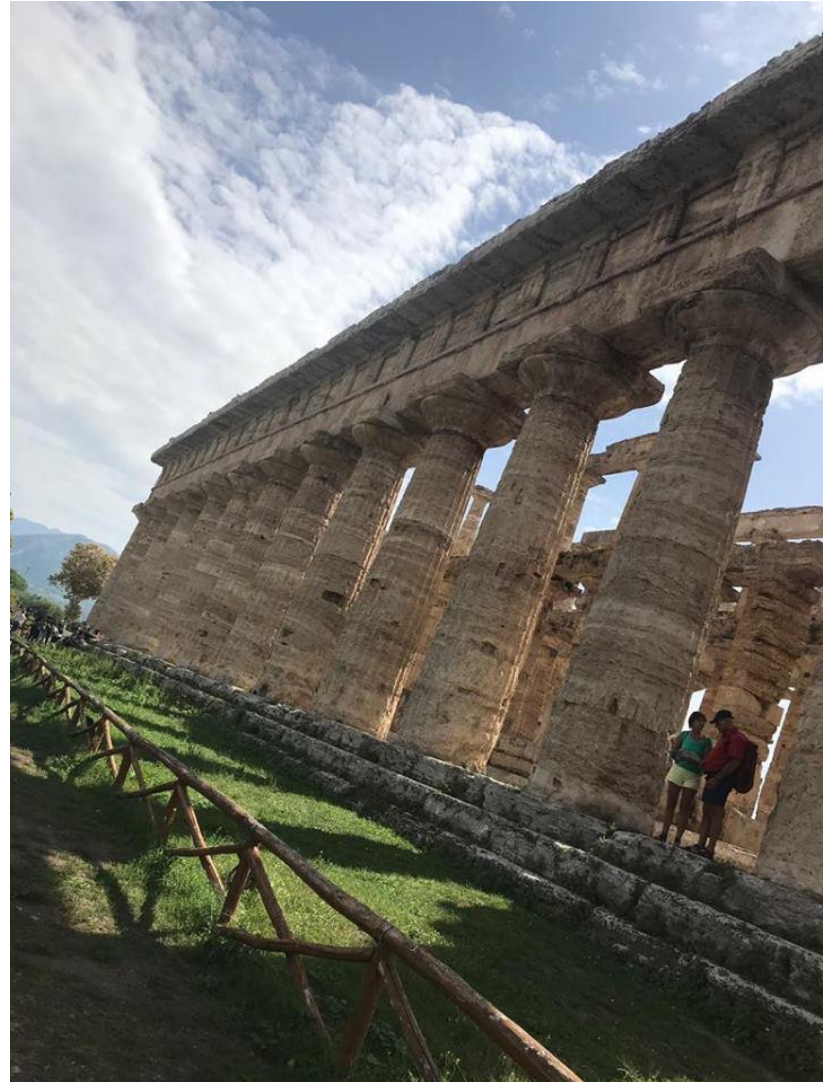

WELCOME GUYS!!

The Croatian group arrived here at our school around 10:00 and after a presentation of our **Pincipal**, Rossella De Luca, they did a rapid tour of the school, while in the afternoon they presented their country, **Croatia**, their island, **Vis**, and their culture.

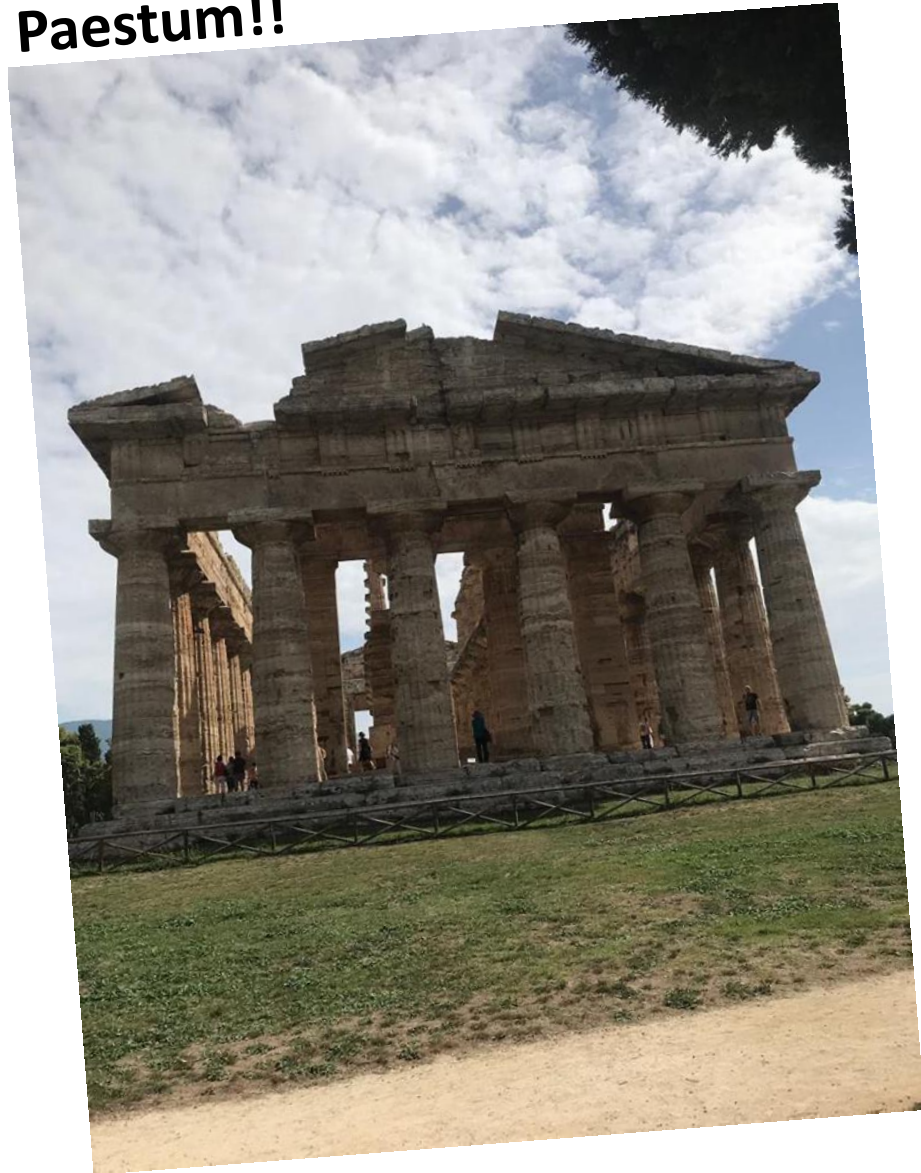

DAY 2

The second day we visited the “Caseificio Vannullo”, where we saw how they make mozzarella and we had a degustation of them! In the afternoon we went to Paestum where we had the possibility to see the ruins and temples of the old city.

DAY 3

The third day we went to CREA, a research centre. Here we followed a conference on plants, their natural processes, new cultivation techniques and on what a greenhouse is. In the afternoon we walked all together to a hydroponic vegetable garden in Lanzara where some guys explained us what hydroponic cultivation is and why it represents our future.

DAY 4

The fourth day we visited Amalfi, one of the most famous, characteristic and beautiful place in Italy!!

DAY 5

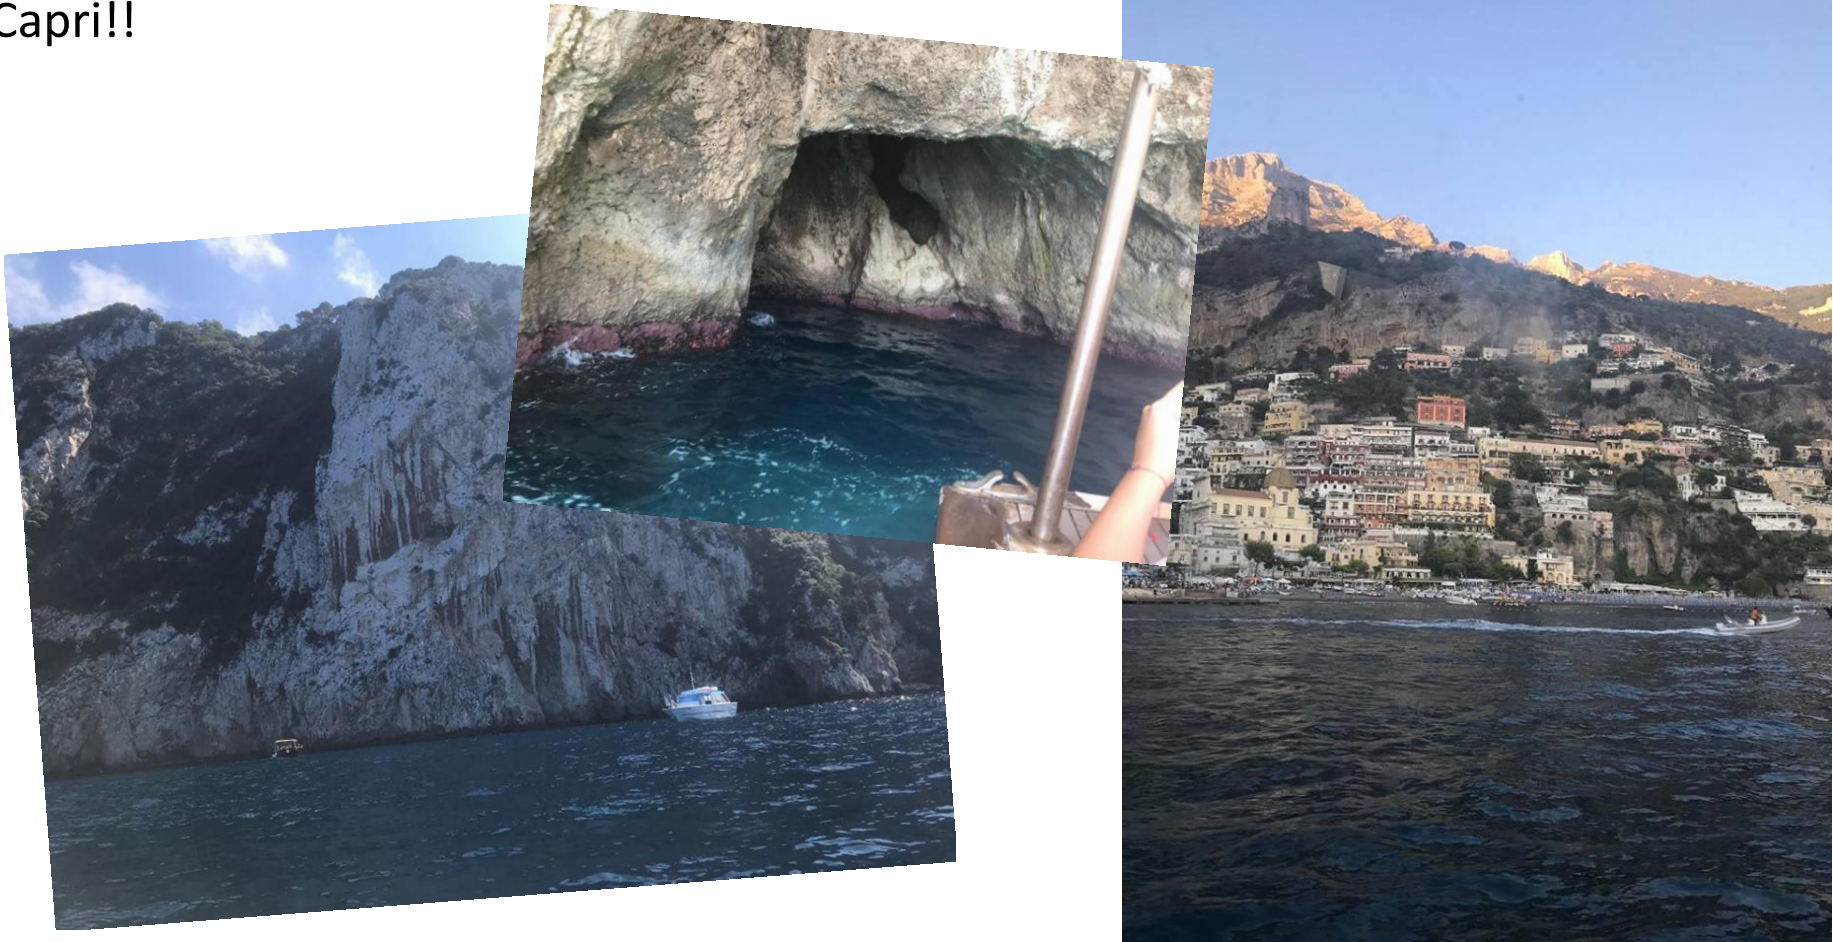

This day the Italian students worked as guides for their guests in one of the most suggestive places: Pompeii. What an amazing experience!

DAY 6

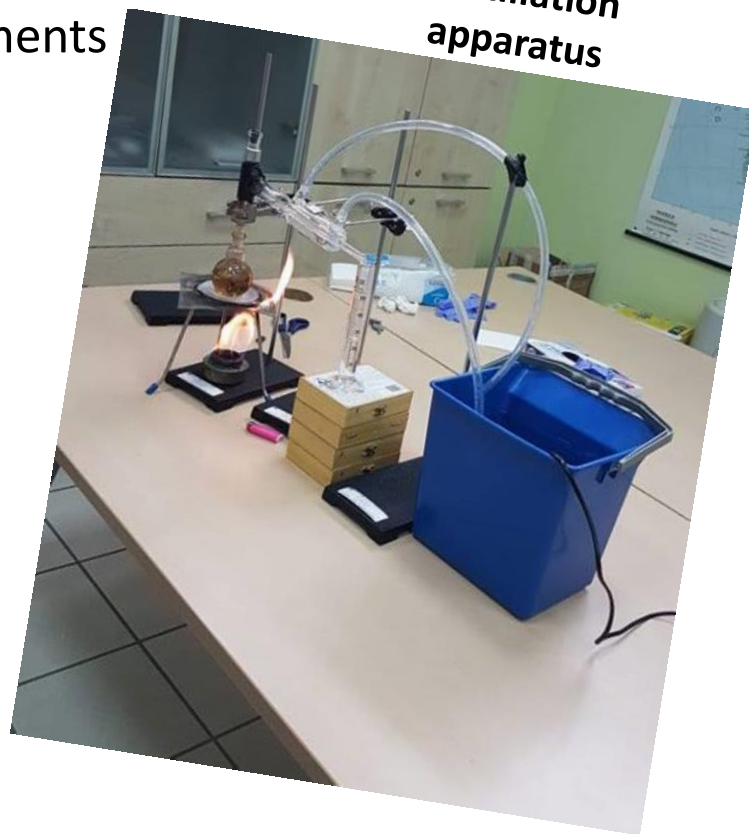

ITALY

The guys are visiting a lot of amazing places here! Today's the turn of Capri!!

DAY 7

This day we are at school where we made some very interesting Chemistry and Informatic experiments together.

This is a distillation apparatus

After the experiments we went to the great hall where there was the exhibition of the choir of the school and the giving out of the certificates.
